John More.

At a late hour on Monday evening an individual sailing under the cognomen of John More, and who carried more

whisky than was good for his physical anatomy, conceived the idea of running a portion of Fifth Street. He threw a rock through the screen door of a jewelry store, striking a gentleman on the head and when the proprietor expostulated with him, threatened to entirely demolish him. The jeweler retreated within his shop and John called upon some Chinamen next door. The heathens could not properly appreciate his company and suggested that he move on. He got outside and at once began playing smash with the windows. Finally he was landed in the city jail, and yesterday morning was assessed for the offense against the jeweler in the sum of \$30. More was discharged from the chain gang a short time since.

A Good Investment.

There has been considerable quiet activity of late in real estate in this city. The transfers have, as a rule, been made very quietly, however, and are generally of a speculative nature, showing that business men and capitalists have considerable confidence in Ogden's future. The latest transaction that has come to our notice is the transfer of the piece of land on Main Street, formerly owned by Mr. John Horrocks, to William H. Wright & Sons, the price per foot being \$75. The land is well located and extends back twenty rods and is considered a rare bargain. The present owners made a lucky strike when they made the purchase.

Personal and General.

PREPARATIONS were being made to move a large quantity of wheat in this city; but the latest advices from both the east and the west were so discouraging that the project has been postponed.

PEACHES are getting scarce in the market, the demand being larger than the available supply. Our fruit goes out in all directions, east, west, north and south. Not very far south, however.

THE DEVELOPMENTS of the past few months in the building line speak favorably for Ogden's future. The business of the city seems to be destined to move northward and prices of real estate along the main street, since last spring, have quite materially advanced.

THE people of Ogden Valley are near the end of the threshing season. Crops there are said to be considerably below the average, while the acreage is about the same as previous years. Still there will be no dearth of bread stuffs and none are likely to want for the comforts of life.

THRESHING in Plain City is being wound up pretty rapidly now, and will last only a few days more. The yield of grain is reported as being a very good average. The fruit crop, too, with the exception of apples, is a good one, apples only being short; but the potato crop is very short. Plain City is said to be one of the very best potato patches in the whole county, and the shortage of that product will make the farmers a trifle despondent.

THERE is a scribbler on the local News, who seems to have fallen into such chronic habits of berating everything Mormon, that he cannot pay a visit to a neighboring town, but he must find fault and sling his insignificant slurs at his neighbors. It is an abundantly bearing orchard happens to have a few weeds in it, the cause is the Mormon creed. The Mormons cannot lay out a grave yard to suit him. Beautiful trees are found fault with because they furnish shelter for hoodlums, and, as a matter of course, Mormonism is to blame for planting the trees. We might continue the list of absurd vaporings that emanate from his befuddled brain at will; but he don't amount to anything, and nothing he can say will hurt any one, nor do them any good either. His sheet is a perpetual sneer; in fact, its visage has become so distorted that it simply disgusts without annoying.

Benton's Hair Grower.

All who are BALD, all who are becoming BALD, all who do not want to be BALD, all who are troubled with DANDRUFF, or ITCHING of the scalp, should use Benton's Hair Grower. Eighty per cent. of those using it have grown hair. It never fails to stop the hair from falling. Through sickness and fevers the hair sometimes falls off in a short time, and although the person may have remained bald for years, if you use Benton's Hair Grower according to directions you are sure of a growth of hair. In hundreds of cases we have produced a good growth of hair on those who have been bald and glazed for years, we have fully substantiated the following facts:

We grow Hair in 80 cases out of 100, no matter how long bald. Unlike other preparations, it contains no sugar of lead, or vegetable or mineral poisons. It is a specific for falling hair, dandruff, and itching of the scalp. The Hair Grower is a hair food, and its composition is almost exactly like the oil which supplies the hair with its vitality.

DOUBLE AND TRIPLE STRENGTH.

When the skin is very tough and hard, and the follicle is apparently effectually closed, the single strength will sometimes fail to reach the papilla; in such cases the double or triple strength should be used in connection with the single, using them alternately.

Price, Single strength \$1.00; Double strength \$2.00, Triple strength, \$3.00. If your druggist have not got it we will send it prepaid on receipt of price.
